

**GIANT OUTBOARD GEAR OIL 80W90**

Premium Marine Gear Oil

**DESCRIPTION**

GIANT OUTBOARD GEAR OIL 80W90 is a premium gear oil specifically designed for use in high performance marine gear applications in majority of boats fitted with an outboard engine, stern drive unit. The premium and field-tested additive package contains extreme pressure additives that delivers superior protection against excessive wear, corrosion and pitting, even in the presence of a salt water environment, under heavy-duty applications.

**BENEFITS**

- Meets or exceeds the requirements of API GL-5.
- Extended protection capabilities, in a wide range of temperatures, thus extending gear life.
- Superior extreme pressure, anti-wear additives.
- Excellent control against oxidation, corrosion and pitting.

**PERFORMANCE STANDARDS**

- API GL-5

**TYPICAL APPLICATIONS**

- Gear applications in marine outboard motors, stern drive units
- Gear applications requiring API GL-5

**TYPICAL PROPERTIES**

<b>SAE</b>	<b>80W90</b>
Specific Gravity	0.889
Kinematic Viscosity, cSt @ 40°C	155.1
Kinematic Viscosity, cSt @ 100°C	15.8
Viscosity Index	105
Pour Point, °C	-27
Flash Point, °C	232
